

## SHORT NEWS

### **Kamil Karibov and Ilya Titov spoke at the 5<sup>th</sup> Annual International BIM Forum**

The 5<sup>th</sup> Annual International BIM Forum was held in Moscow from 8 to 9 December 2021. The BIM Forum is an annual professional event in the digital construction sector, whose main goal is to facilitate an exchange of cutting-edge practical experience of using digital technologies at all the implementation stages of construction projects. The forum was conducted in a hybrid format, permitting online and offline participation, and attracted over 3,000 representatives of the construction industry.

This year, lawyers of the Moscow office of ADVANT Beiten Kamil Karibov and Ilya Titov participate in the forum. Our colleagues spoke during the round table “Key risks during the implementation of BIM projects”, which also included Yury Bazylev (M.K.32), Andrey Kumskov (VTB Real Estate) and Sergey Dolzhenkov (EKSINKO). The participants in the debate discussed the legal risks arising during the implementation of BIM projects and issues pertaining to the protection of intellectual rights to BIM models, and shared their experiences of implementing BIM projects from the perspective of technical clients and designers.
